*From the Publisher ...* Our sincerest condolences to John Bowker, whose mother died recently.

A few members reported not receiving #11 or #12, and so replacements (always free) are being sent. I suspect that the missing issues will arrive sooner or later, however.

I am typing this with 17+ inches of snow on the ground and more on the way. About a week ago, I was

floating down a stream in an innertube in a park about an hour's drive from Cuernavaca, Mexico, improving my tan. Needless to say, I have had mixed feelings about having to return to this weather after spending a marvelous 12-day vacation in central Mexico! I was able to pick up about 15 U. S. stations which I positively ID'ed - look for a report in a future Musing.

I've also talked over the phone with IRCA president Phil Bytheway and I have not withdrawn my bid for joint publication of IRCA's *DX Monitor*, asking that the IRCA board continue to consider my bid.

Wayne Heinen is developing some projects which will probably require volunteer typists. If you would be interested in helping him out and have a computer of some kind, please contact the publisher in Topeka. Include specific details as to your computer (type, disk sizes, software available) and time available for typing. We currently can easily accommodate MS-DOS, Macintosh, Apple, and Commodore 64 software, by the way, and possibly others.

*DXChange ...* Mike Hardester - 3118 Gaitway Court - Jacksonville, NC 28546-6973 will be happy to send you a list of "questionable" goodies for an SASE. Mike's list ranges from Vol. 3 copies of *Monitoring Times* to various catalogs, manuals, and DX bulletins.

### DX Time Machine

*From the pages of DX News:*

50 years ago ... from the Jan. 2, 1943 *DXN*: In regard to reports to TIPG and TIBAS that were returned to Ernie Cooper, the Chief Postal Censor wrote as follows: "Verifications and requests for verification of radio programs are no longer permitted outside the limits of the continental United States. The above regulation has been adopted in the interest of hemisphere defense and to aid the United Nations war effort." From the Jan. 9, 1943 *DXN*: Norm Maguire, Albuquerque, NM, reported R8-to-9 reception on an early January morning of Hilversum-995, Bordeaux-1077, Toulouse-913 and 778, England-668 and 804, and Cologne-658.

25 years ago ... from the January 13, 1968 *DXN*: Ken Chatterton, Mannsville, NY reported receiving the 4VEC-890 test and TGJ-880 on 12-25.

10 years ago ... from the January 13, 1983 *DXN*: Vincent Pinto's long review of the ICOM R-70 was generally favorable, and Gerry Thomas's review of the SONY ICF-6500W came close to naming it "The Perfect Portable".

## APPLICATIONS/GRANTS FOR NEW STATIONS

None

## APPLICATIONS FROM EXISTING STATIONS

620	WTMJ	WI	Milwaukee: powers to 50000/10000
640	WWJZ	NJ	Mount Holly: reduce night power to 950 watts
730	WVFN	MI	East Lansing: night power to 5000 watts
830	WCRN	MA	Cherry Valley: city of license to Worcester, MA increase powers to 7000/5000

## GRANTS TO EXISTING STATIONS

560	CFOS	ON	Owen Sound: raise day power to 7500 watts
1220	KBNO	CO	Denver: relocate transmitter site
1330	WKTA	IL	Evanston: reduce PSRA/PSA powers to 24 watts. Station will operate directional antenna during regular hours but non-directional antenna during the PSRA and PSA time periods. This creates a new antenna pattern symbol in the NRC Log: U11 You have been a witness to history in the making.

## OTHERNESS

710	CHYR	ON	Leamington: the new FM station on 96.7 which was to replace CHYR's AM operation on both 710 and 730 kHz is now on the air, the days of this unique split-frequency Canadian are likely drawing to a close so if they are not yet in your log, try for them while you can.
1010	WCNU	FL	Orestview: no sooner had this silent station returned to the air than it became SILENT again. Local news accounts claim the owner has been arrested for some unspecified offense.
1020	WPRJ	MI	Mount Pleasant: new station is ON THE AIR
1030	WONQ	FL	Oviedo: new station is ON THE AIR with SS format (ex-WCAG but never operated under this call)
1040	KURS	CA	San Diego: new station is ON THE AIR with SS format (Wow! Three new stations in a row!)
1170	WJOC	MA	Norfolk: silent station is ON THE AIR as of 11-27

1230	WAYX	GA	Waycross: silent station is ON THE AIR
1250	KHIL	AZ	Willcox, silent since 3-92 is back ON THE AIR
	WKBR	NH	Manchester: station was silent, then returned with relay of WNH-1340, once again is SILENT
1260	KGIL	CA	San Fernando: station is SILENT but will return by the end of January once a new transmitter is installed, will then relay KJQI-540 Costa Mesa, CA
1290	WATO	TN	Oak Ridge: station now relays programming from recently-returned WOGM-1120 (see 1430 WEMG below)
1330	WELW	OH	Willoughby: station has CANCELLED CP for night power increase to 340 watts and move to Eastlake, will remain 500/42 U3 but is now investigating a possible move to the 1600-1700 kHz expanded band.
1350	CBRZ	BC	Bralorne: two issues ago we misspelled this city (town, crossroads, whatever) as BralornA. Not that the world will end or anything but we like to keep things right. Also we said they were a 40 watt relay for CBU but with the move from 630 to 1350 kHz they now relay CBTK-FM.
1370	KEEN	CA	San Jose: station is SILENT, lost the lease on their transmitter land, quoted in a local paper saying they expect to return in "mid 1993"
1430	WBRB	MI	Mount Clemens: we recently ran an item noting this silent station had new ownership and would be expected back on the air which is still true, however, don't expect it to happen soon. While the studio building is still intact their three tower transmitter site is gone, replaced with a large shopping center.
	WEMG	TN	Knoxville: silent station is set to return to the air pending a sale, will relay programming from recently-returned WOGM-1120 Maryville, TN.
1450	WWNT	AL	Dothan: silent station is ON THE AIR
1460	WPRW	VA	Manassas: long silent station is set to return to the air and will offer a Children's format which will also be relayed on WNTR-1050 Silver Spring, MD and WITH-1230 Baltimore, MD.
1470	WBUL	KY	Shepherdsville: this on again-off again station is once again ON THE AIR and now relays WZOC-1570 New Albany, IN.
1490	WTUP	MS	Tupelo: silent station is ON THE AIR
1550	WWBH	FL	New Smyrna Beach: station is SILENT
1600	WINX	MD	Rockville: rumors filtering out of this station indicate they are contemplating a move to 1610 kHz with 10000/10000 when the new band opens up. In our opinion this is one of the few instances when a move to the new band makes sense. WINX would effectively stay at the same approximate dial position and even "old" radios all tune high enough to get 1610 kHz.

**THE FCC STRIKES AGAIN:** You all remember when those fun guys on M Street in DC assigned the same call to two different stations and didn't discover it until long after both stations were operating?

The highlights of the 1992 NRC Convention are now available on four C-90 cassette tapes in a convenient carrying/storage case for \$9.50. Order your set now from NRC Publications. New York residents, please add sales tax.

And remember when those same guys in the 1980's assigned KTGG to a station in MICHIGAN (a station which, by the way, got to keep their unique K call)...well...they're BAAAACK! The FOC just assigned the call WLMY to a station in SAIPAN! Now, wait, unless my map is wrong, isn't Saipan just a bit west of the Mississippi River? To the amazement of all they actually found this error, possibly with the help of the station, and have reassigned them KPHX. This is an FM station so don't go looking for it in your Log, but we thought it was interesting to note that these little amusements still happen in the hallowed halls of the FOC.

**THANKS:** Wayne Heinen, Dick Truax, Dave Norment, Jim Nahirniak, Dave Zumwalt, John Bowker (via the Audio Service), Bruce Reynolds, Shawn Axelrod, Eugene Cronin, Stan Morss, Ed Krajny, Guy Fawks, Keith Short, Don Kaskey, Ken Butterfield and MSJ.

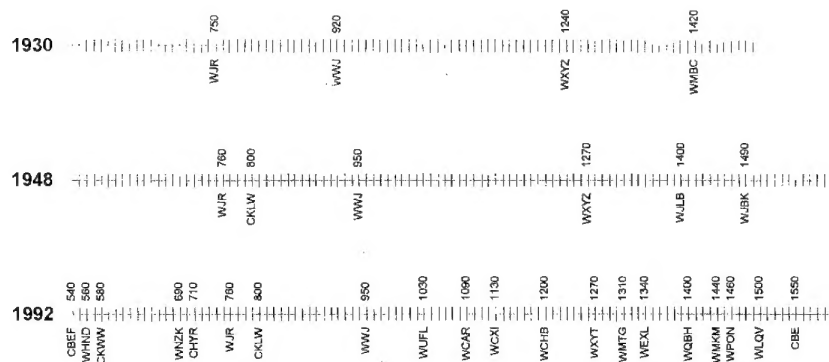

And so we end the THREE-HUNDREDTH AM Switch column we've generated since becoming editor about a dozen years ago. My, how time flies when you're having something or other.....

73 and Good DX, *Jerry & BKF* Jerry Starr & Buffalo K. Foorman

### DDXD North

#### MEDIUM WAVE RAMBLINGS

- Welcome to the Lucky 13 Edition of DDXD-North. Due to our "Christmas Break", we have several multiple reports from DXers. I have intentionally edited out several inquiries about the questions concerning 550 in Cincinnati. Thanks to Gregory Henson for sending a newspaper article about the WLW/WKRC LMA. But, I believe AM Switch and reports in prior issues have covered the situation quite well. So, let's see what else has been going on.
- A follow-up from Mike Hardester on his in-band TIS info in the last issue, relayed by Mike from Jeff Multer, goes like this . . . *The North Carolina DOT has mounted TIS transmitters at some of its rest areas. They also have some portable 'Solar Max' units that can operate on any AM frequency. I have one near here that's been running a test tape on 1210 kHz for a couple of months. These units can be accessed remotely by cellular phone. Chances are there are going to be more of these guys popping up on the good, old broadcast band. Watch for 'em, and report what you hear! And a correction on the location of an "in-bander" is in the goodie pile this week, also!*
- Due to the tremendous response to his last unIDs, Alan Merriman has some more for you sleuths to figure out. His are what I would call *Oldies but Goodies*, but we'll go with them, anyway.
- Welcome aboard to two new reporters, Bart Cronin of Edmonds, Washington and John Baumgarten from Tomah in my home state of Wisconsin. Good to hear from youse guys, and hope you report here often.
- Many thanks to all friends and reporters who sent Christmas cards and greeting to DDXD-N.

### UNIDs and UNID HELP

- 630 UNID ?? - 12/3 0257 - Poor in null of powerful CFCO with *Country 630* slogan, Satellite Broadcast News, and *Country Coast-to-Coast* program. I suspect CFCO. Does this match? (MJ-MI) [Well, Da Log sez they are country. Maybe we can get more help than that from *out there* - Ed.]

### DX AND EQUIPMENT TESTS

- 570 KCNO CA Alturas - 11/30 0330 - Best conditions so far this season enabled me to snag a long series of CIDs from this guy. Signal was good, as it was about 10 minutes later when CIDs were repeated, then WWNC took over. Received a nice verie on 12/10. 1st regional from CA logged here. (RD-IA)
- WMAM WI Marinette - 12/7 0225-0230 - No sign of them. Only Kitchener on. (DT-ON)
- 960 KNEB NE Scottsbluff - 12/14 - This guy is a monthly visitor here on its frequency check, but CIDs and a nice VID at 0130 from Les Proctor finally made this verifiable. Signal was fair → good, only KZIM was a pest. (RD-IA)
- KNEB NE Scottsbluff - 12/14 0200 - Very good with TT at 0206, 8 or 9 CIDs at 0210 and again at 0223. Easy over CFAC. (SA-MB)
- KNEB NE Scottsbluff - 12/14 0202 - Poor with TT + CID on DX Test. (RK-IL)
- KNEB NE Scottsbluff - 12/14 - Tried, but not heard. No surprise. 0200-0230 - Usual regular KABL with public service program *Speak For Yourself* on Medicaid and veteran's benefits (quite interesting!). Two unIDs underneath, possible *KLAD* ID at 0228. Also possible CFAC mixed in. (RO-AK) ... Not heard. Only a low rumbling het tearing up the frequency over/under unID LK and several others. (JL-OH)
- KGWA OK Enid - 12/21 0101 - Poor on DX Test with TT and CIDs. (RK-IL)
- KGWA OK Enid - 12/21 0100-0130 - Thought I heard a 400 Hz TT at 0110, but was too far buried in co-channel noise to be sure. (JL-OH)
- 1020 WRIX SC Homeland Park - 12/7 0212-0235 - Good at first, but started fading. Battle with KDKA and CFRB splash. (DT-ON) ... 12/7 - CIDs very clearly heard at 0206, 0209, 0228 along with KDKA, KTNQ. New! SC #2. (SA-MB)
- 1100 KNZZ CO Grand Junction - 12/14 0411 - Fair on DX Test under WWWE with CIDs + 1 VID. (RK-IL)
- KNZZ CO Grand Junction - 14/14 0500-0600 - Not heard as I go 0 for 3 tonight while semi-local WWWE dies a number. (JL-OH)

- 1150 WIMA OH Lima - 11/28 0036-0100 - Fair to good with CIDs and lotsa march music from the *Ohio State Buckeye Marching Band*, just as advertised. (RD-IA) ... Not a chance with CHMO on. (DT-ON)
- KNED OK Mc Alester - 12/21 0200-0230 - Not heard. Southwest was dead, not even WIMA 75 miles SW came in. Just CKOC with *Oldies Coast-to-Coast*, over/under unID with Christmas music. (JL-OH)
- 1280 WABK ME Gardiner - 12/14 0230 - Poor with CIDs at 0234 & 0244. With WWTC, KVOX. New for ME #2. (SA-MB)
- WABK ME Gardiner - 12/14 0230-0300 - Not Heard. Dominant WWOK with NOS well over unID FF announcer taking phone calls. (JL-OH)
- 1370 WDEA ME Ellsworth - 12/14 0411 - Fair on DX Test with several very weak CIDs noted. (RK-IL)
- WDEA ME Ellsworth - 12/14 0200 - Nothing. Only KXTL, CFOK & KDTH. (SA-MB)
- 1540 WSMI IL Litchfield - 11/28 0030-0100 - Not a chance with CHIN on. (DT-ON)

### TIS & OTHER STUFF

- 1480 TIS PA Presque Island State Park - This corrects the STATE (see Issue 12). Presque Isle is actually a peninsula, not an "isle". The station is located at the corner of West 6th Street and Peninsula Drive in Erie. Thanks to Jerry Starr for setting the record straight.
- 1610 KOD771 WA Olympic National Park TIS - This station has shown up under Port Angeles Radio as a regular during November and December. Easily readable during the silent portion of Port Angeles's tape. Its location is inland; mention of campgrounds and Lake Crescent. Anyone know the exact location? (GS-BC)
- TIS WI Kenosha - 12/5 0239-0248 - Mixing with Anguilla. Hard to copy all of loop, but did catch mentions of ... *broadcasting from Kenosha* ... and ... *Wisconsin Division of Tourism*. I don't believe the loop included any call letters. First ever TIS from home QTH. (GH-OH)
- TIS WI Kenosha - 12/14 1904 - Poor with info on Wisconsin events, # 1-800-432-TRIP. This is around often, actually over Caribbean Beacon some days. (SA-MB) [I tried for this while in Wisconsin for the holidays, but a no show at 60 miles. Guess I need to try it from Ohio or Winterpeg, hi. I hope we can get some call letters soon! - Ed.]

### LOGGING CORRECTIONS

- 1050 KORE OR Springfield - Eugene - Is the station Jack Woods was picking up on 11/23, not KBLE. KBLE does not carry USA Radio Network News (nor any other net), as does KORE. (BC-WA)

- 580 CKAP ON Kapuskasing - 11/30 0151 - Fair with PSA about keeping things in Kapuskasing locked up, plus ad from the *Ontario Ministry of Education* → *Great 58 ID* and *Steely Dan* song. Perhaps my best Canadian catch ever at this QTH. (RD-IA)

DDxD-East

## NEWS AND VIEWS

A big DDxD-East welcome to Dave Schmidt, who also mentions that WKEN-1600 goes 24 hours, AM Stereo on 1/1. I guess I won't have to worry about hearing nothing other than WWRL on 1600 AN anymore!

Also thanks for some UNID help from Jeff Multer in Charlotte. Jeff also mentions that a town mentioned in a log of WAGL-1560 in the 12/21 DX news should have been Rock Hill, which should have been caught by your editor!

Jeff Kitz sent along a group of daytime logs from his new QTH along with his other logs. I have just highlighted those with changes or additions to the AM Log under Special.

Has anyone else noticed that WWKB-1520 is carrying Chicago Bulls basketball this season, and a lot of other sports also? The new year here was brought in with a great opening on 1/1 from 0825 to 0930 to western New York and as it ended to Pennsylvania, which gave me five new ones! Do you think it was a coincidence that all of the weather forecasts I heard on those stations were expecting flurries later in the day as a front was moving through? Also, while visiting over the holidays my brother Tim, a former member, said he had seen an article that WPRW-1460 would be returning to the air this year with a children's format.

Thank you all for the great turnout this time. I hope everyone had a great holiday season.

### UNID AND UNID HELP

**540 UNID** 11/23 0210 - Very weak with calls that sounded like WGEO. WGTO Possibly? My log lists them as having a MM SP; any updates, anyone? (LM-NY)

**590 UNID** 12/6 0111 - Mixing with WOW with Bruce Williams' Talknet, WARM? (JK-VA)

**790 UNID** 12/6 0224 - Over/under WTAR with Larry King. WSGW? WWKY? WLKW? (JK-VA)

**920 UNID** 12/24 1701 - Noted two stations carrying Redskins football, during network ID at 1702 could not make out anything. One was probably WPTX-MD, which has not been heard here yet. (DB-DE)

**940 UNID** 12/5 2120 - In with sports, thought I heard mentions of the "Hornets" which would indicate a relay of WBT. WKYK or WLNC? Maybe, WLNC is still on 1300 kHz? (JK-VA) (The AM Log shows WLNC on 1300, 1991-92 Hornets list in IRCA Almanac Updater 5.4 shows no one on 940 - db)

**960 UNID** 12/14 1610 - A show with letters to Santa being read by Uncle Bob and a woman interspersed with Christmas songs. Listened until 1632 with no ID then fade. Strong in null of CFFX and CKCH splatter. Don't think it's WHAK listed below. (LK-ON)

**1120 WADN** MA Concord - JR-NY's tentative log in DX News Vol. 60, #9 of December 7 which he heard on October 24 is definitely WADN which I logged on January 8, 1992 with both BBC and CBC news and a call ID. (LK-ON)

**1230 UNID** 12/9 1950-2000 - With Boston Celtics basketball. Maybe unneeded WERI or WNEB, or maybe needed WESX or WMNB. Help? (RE-PA) (The IRCA Almanac Updater 5.4 shows the Celtics on WMOU, WTSV, WERI and WJOY in 1991-92 - db)

*Foreign DX Catches. Times are UTC; for ELI, subtract 5 hrs.*

Jean Burnell joins the growing ranks (now two) of DXers submitting their logs via 5.25" disk. For your information, I use PC-Write, but any ASCII format seems to work, I simply edit out the strange characters and reset the margins as needed. Thanks for this time-saving assistance (although I managed to erase Mark Connelly's logs in merging Jean's this time!).

You may see a one- or two-week break in IDXD while I am on vacation in California during January. I'll catch up with all your loggings when I return around 1/20. In the meantime, Good DX!

Jim
